

IFCO approved label requirements

IFCO SYSTEMS in collaboration with growers, retailers, and label providers has developed a list of compliant labels authorized for use on our RPCs. Our RPCs are manufactured with label placement surfaces on the short side display panel. Placement of compliant labels on these surfaces will provide proper adherence to the surface while the RPC is in use and will allow for effective removal during our wash process.

Below is the list of the **only** approved labels. The adhesives listed for the approved materials cannot be used with a different facstock, only the exact combination listed below is approved for use. These labels are widely available through label vendors. Be specific and request by the product name listed below when ordering your RPC labels to ensure compliance. We have a list of approved vendors that have stock of these accepted labels if you need assistance in purchasing.

The use of any non-compliant label on our RPCs may result in enforcement action. If you have additional questions, please email IFCOLabels@ifco.com.

Approved adhesive/Substrate combinations

Product name	Substrate name	Adhesive name	Substrate type	Printing type
UPM RAFLATAC SP184W	54# Raflacoat Paper	RP45	Paper	Thermal transfer
UPM RAFLATAC DT209J	Thermal Eco 300 Paper	RP45	Paper	Direct thermal
UPM RAFLATAC DT92K	Direct Thermal Top Retail Paper	RP48AT	Paper	Direct thermal
UPM RAFLATAC TT50F	Transfer Premium Extra Paper	RP51	Paper	Thermal transfer
MACTAC DTM0902	Top Coated Paper	LT-20	Paper	Direct thermal
AVERY DENNINSON 54341	Fasson® Trans-Therm® C-Eco paper	S1550	Paper	Thermal transfer
TECHNICOTE 86152	White PP Film	AT333	Film	Direct thermal
TECHNICOTE 992601	Matte White BOPP Film	AT333 HCWT	Film	Thermal transfer
TECH-LABEL RPCNC4312TT	Top Coated White Matte PP Film	NCR4312	Film	Thermal transfer
RICOH 140LDS/LES	Polypropylene Film	G12/G29	Film	Direct thermal/ Thermal transfer
