

Caja Oro™

- Optimal ventilation for more consistent ripening
- Erected crates are compatible with other IFCO RPC types for faster warehouse picking
- One-touch transport, storage and display for speed and better product protection
- Optimized for bananas

A sturdy, food-safe reusable plastic container (RPC) for bananas. Tough and durable, it significantly reduces product damage during transport and storage compared with single-use packaging. It's also ideal for point-of-sale (POS) display. Available in two sizes.

Your benefits

Protects your produce

- Cools bananas to the ideal 14.2°C 33% faster and 41% more consistently than single-use packaging
- Faster cooling reduces premature ripening and increases shelf-life

Efficient handling

- Fast manual or automated unfolding
- Easy stacking with minimum effort
- Quick to replace in fresh produce department, saving time and money

Helps you operate more sustainably

- Reusable over many years, eliminating waste
- After useful life, material is recycled into new RPCs
- Reduced waste, pollution and use of natural resources

Standardized for maximum convenience

- Erected crates are compatible with other IFCO RPC types
- Compatible with all standard pallets
- Optional graphics and labels for branding available
- Pooled and serviced through IFCO's network of service centers
