

IFCO SYSTEMS US, LLC
3030 N Rocky Point Dr.
Suite 300
Tampa, FL 33607 | USA

Dear IFCO RPC Valued Customer,

IFCO Systems is committed to ensuring the safe transport of food products in our Reusable Plastic Containers (RPC) and meeting all relevant food labeling requirements. In a collaborative effort with the industry, IFCO has developed a list of compliant labels authorized for use on our RPCs. Our RPCs are manufactured with label placement surfaces on **end** display panels. Placement of compliant labels on these surfaces will provide proper adherence to the surface while the RPC is in use and will allow for more effective removal during our wash process.

We would like to remind you that approved label compliance and placement is **mandatory** and is included in our Master Rental Agreement A.10. This will be enforced moving forward.

- **Lessee agrees to use only approved adhesive labels or dissolvable labels in their use of RPCs. Lessee will be charged \$.50 per RPC for any visible labels of the Lessee. Lessee will be charged the currently lost/damaged asset fee as set forth in Exhibit #1 (the “Lost/Damaged Asset Fee”) per RPC if labels of the Lessee are not able to reasonably be removed from the RPC by IFCO and require the RPC to be destroyed.**

The current approved adhesive labels are provided in the *IFCO Label & Adhesive Specification Document* at www.ifco.com/supply_chain_resources. The use of any label on our RPCs other than these approved labels will make the RPC unserviceable and will result in enforcement action.

To ensure compliance to the approved label list, you have been selected to submit a sample of your current labels that are applied to RPCs. See below for items that need to be submitted within **15 days**.

- 20 labels from current stock (can be printed or not printed with your standard PTI info)
- Copy of latest PO showing:
 - Label company name purchased from
 - Specific label name purchased
- Also, if available a specification sheet of the label listed on the PO

IFCO SYSTEMS
